

# International Students **2027 Undergraduate and Postgraduate Degrees**

# Every path welcome, every student celebrated.

At the University of Newcastle, we believe diversity is at the heart of innovation.

Here, 37,000 students from 96 countries come to learn, connect, get involved, and be inspired, creating a warm welcoming community. Maybe you will join one of our 100+ clubs, societies and sports teams to meet people who share your passions and interests. A place where you can find like-minded people and where lifelong friendships are made.

Maybe you will join over 300 of our scientists and researchers working to discover renewable energy solutions. You might advocate for the rights of refugees, or make your start-up dream a reality.

Join a place that will open your mind to what is possible, to discover how you might make a difference in your community or in the world. We are proud to be ranked within the top 40 universities in the world for impact<sup>1</sup>. We believe to make real impact you need real world understanding. And that is why all our degrees offer incredible hands-on experiences.

So come and join us at the University of Newcastle. Bring your ideas, your passion, and your energy. Together, we just might change the world for good.

A photograph of three young women on a beach. One woman is in the foreground, seen from the back, wearing a white t-shirt. Another woman is hugging her from behind, wearing a blue denim jacket. A third woman is smiling and hugging the woman in the blue jacket from the side. They are all smiling and appear to be having a good time. The background shows a sandy beach and the ocean.

The University of Newcastle  
acknowledges the traditional  
custodians of the lands within our  
footprint areas: Awabakal, Darkinjung,  
Biripai, Worimi, Wonnarua,  
Gomeroi, and Eora Nations. We  
pay respect to the wisdom of  
our Elders past and present. We  
extend our acknowledgement  
and respect to all Aboriginal and  
Torres Strait Islander Nations  
from which our students, staff  
and community are drawn.

# Welcome

We are delighted you are considering studying at the University of Newcastle and cannot wait to welcome you as you begin your university journey.

As a student you will be joining a university ranked in the top 1% globally, following in the footsteps of thousands of international students who discovered their limitless potential and achieved outstanding outcomes.

With a diverse community hailing from 96 countries, our region provides a unique blend of opportunities for a world-class education, employment, career growth and social connection, all within a thriving regional economy.

Our stunning campuses offer more than just academic excellence; they are safe and welcoming hubs of cultural and social activities set against the backdrop of some of Australia's most beautiful landscapes.

We know that building a career is important to our students, that is why we are committed to providing you with invaluable real-world experience that will set you apart in the local and global job market.

With 91.6% of our undergraduate and 94.5% of our postgraduate graduates finding employment within four months of graduating, we are certain you will leave us with skills, connection and confidence to build the career you have been dreaming of. For example, Tarun Gupta joined our University to study his MBA. Today he is CEO of Stockland, one of the largest public-listed companies on the Australian Stock Exchange.

We do not just talk about making a difference; we are doing it. We are ranked in the top 40 universities globally for impact and 2nd globally for climate action under the United Nations' Sustainable Development Goals<sup>1</sup>.

As a student here, you will have the chance to connect with industry professionals and learn from leading researchers who are making significant contributions to knowledge and innovation, both in Australia and globally.

We look forward to welcoming you to our diverse and inclusive community, where you will find endless opportunities to learn, grow, and make a lasting impact.

**Professor Alex Zelinsky AO,  
Vice-Chancellor and President**

# 4 Why study with us?

When you choose the University of Newcastle, you are not just picking a place to study; you are choosing an incredible lifestyle, an enriching educational experience and creating a competitive advantage for your future career. Here are some of the top reasons to study with us.

Museum Park, Newcastle

### Top 1% university in the world<sup>1</sup>

Enjoy a world-class education with industry experts, practical learning, and real-world experiences.

### 12 subjects ranked in the QS top 200<sup>2</sup>

Choose from world-leading courses that suit your interests and goals.

### Get employed and earn higher salaries<sup>3</sup>

Start your career with confidence and earn more than the national average salaries. 91.6% of undergraduate and 94.5% of postgraduate students from the University of Newcastle find employment within four months of graduating.

### Be part of a welcoming and diverse student community<sup>4</sup>

Join our vibrant community of over 37,000 students, including nearly 6,400 international students from 96 different countries. With over 100 clubs and societies in social, cultural, academic and sporting interests, you can connect with like-minded people.

### No. 2 in the world for climate action<sup>5</sup>

Be part of a university that is committed to a better and more sustainable future for all, aligning our priorities to the United Nations Sustainable Development Goals (SDGs).

### Enjoy a more affordable Australian study experience

Our regional university offers a world-class Australian study experience. With globally recognised programs, strong career outcomes, and affordable tuition fees supported by scholarships and lower cost of living, you will gain a high quality education that delivers an excellent return on investment.

### Strong industry partnerships

Build your professional networks and connect with industry through strong partnerships across various industries. Engage with expert guest speakers through one of our many career exhibitions.

### Gain additional post-study work opportunities in Australia

The Australian Government allows eligible international graduates who meet study and skills criteria to remain in Australia after they complete their degree and gain valuable work experience. To promote living and working in regional areas, students who study in a designated regional area may be able to stay for up to five years.

### Leading regional economy in Australia and growing<sup>6</sup>

The Hunter Region is home to more than 860,000 people, 427,000 jobs and has an estimated Gross Regional Product of \$95 billion<sup>7</sup>. The population is expected to increase to nearly 950,000 people by 2041. Newcastle has plenty of part-time work opportunities available while you study and full-time jobs once you complete your degree.

### Career-ready placements

Engage in practical learning experiences with career-ready placements and state-of-the-art equipment that simulate industry standards.

# Newcastle

Newcastle is a thriving and vibrant regional coastal city with restaurants, cafes and pubs. There are many events and fun activities to do. You will be warmly welcomed into the Australian lifestyle and culture.

Find out more about life in Newcastle.

## Post-study work opportunities

are available in Australia after successful completion of study<sup>6</sup>

### Entertainment

There are many low-cost and free activities for you and your friends around the city. Some ideas include: rent a bike and ride along the coast and watch for whales in winter, visit the wildlife at Blackbutt Nature Reserve, explore arts and history at Newcastle Museum, Art Gallery or Civic Theatre, boutique shopping on Darby Street, visit a major shopping mall, or go for a dip at one of Newcastle's world famous beaches or baths.

For more ideas visit, [visitnewcastle.com.au/events](http://visitnewcastle.com.au/events)

### Fast facts

1. There are approximately 17,673 tertiary students in Newcastle.<sup>1</sup>
2. Newcastle is the second largest city in NSW and the seventh largest in Australia.<sup>2</sup>
3. Newcastle's average temperature is 18.6 degrees celsius.<sup>3</sup>
4. There are 41 beaches in the Newcastle, Lake Macquarie and Port Stephens area.<sup>4</sup>
5. Newcastle was voted the No.1 Tourism Town in NSW.<sup>5</sup>

### Job opportunities<sup>7</sup>

As our region continues to grow, job opportunities and new roles will increase within the areas of manufacturing, creative industries, aerospace, food and agribusiness, medical technology and pharmaceuticals, mining equipment and services and renewable energy. Some of the key growth projects set to boost the Hunter Region economy are:

- John Hunter Health and Innovation Precinct which features industry-leading facilities that support communities across the Hunter and Northern New South Wales (NSW)
- Planned expansion of Newcastle Airport by 2030 which will see it double, expanding the region's tourism industry and enhancing connections with the Asia-Pacific
- Development of advanced manufacturing, and aerospace hubs which will leverage engineering expertise to foster innovation and create high-skilled jobs, positioning the region as a leader in these sectors
- Diversification and growth in the energy sector with a focus on energy-efficient and renewable technologies which will help the Hunter Region become a major hub for next-generation power, particularly in renewable hydrogen generation, storage, and use.

### Careers Service

Our Careers Service team can support you to gain part-time work while you study and full-time employment when you complete your degree.

Learn more about our Careers Service.

 Newcastle

## Food

With a wide range of restaurants, bars and cafes, Newcastle has cuisines to suit all tastes. Darby Street in Cooks Hill and Beaumont Street in Hamilton are lined with a variety of restaurants, cafes and takeaway options.

Cooking a dish from home? There are many multicultural grocers to find all your favourite ingredients. Try Young Asian Grocery, Kwon Mart, Raj Spices, Kairali or Bibina.

## Sport

The people of Newcastle, known as Novocastrians, love a range of sports. Help cheer on our local men's and women's teams at a Newcastle Knights (rugby league), or Newcastle Jets (soccer) game. Head down to Merewether Beach for the annual Surfest Newcastle event attracting hundreds of pro men and women surfers from all over the world.

There are also plenty of opportunities to stay active yourself. Join one of the many local sports teams and swim at swimming pools, coastal baths or patrolled beaches. Take advantage of student discounts at NUsport gyms based at Newcastle Callaghan and Newcastle City campuses.

## Nearby Newcastle

Newcastle is surrounded by many regional attractions that you can enjoy when you study with us, including: Lake Macquarie, Port Stephens, Hunter Valley and Barrington Tops.

## Connectivity and getting around

### Public transport

Trains, trams and buses safely connect our campuses to the city and beach.

### Free shuttles

The University offers free shuttles between its Newcastle campuses, and shuttles from Newcastle Callaghan to nearby local shops.

### Newcastle Airport

Located 25 km north of the city centre, with frequent direct flights to major Australian cities and with a brand new international terminal.

# Central Coast map

## 1 The University of Newcastle

### Central Coast campus

## 2 Gosford

- Gosford train station

# 12 Central Coast

A beautiful region to undertake your studies, the Central Coast is a vibrant mix of urban hubs, beach towns and hinterland villages. Only an hour's drive from Newcastle, and a 1 hour and 26 minute train ride to Sydney, uncover the many things to do, see and explore.

Find out more about living on the Central Coast

## Get exploring

Towns surrounding the Central Coast have a lot to offer. Things to see and do include: hinterland adventures and local farmers markets at Wyong, water activities and good food at The Entrance, craft breweries and stadium events at Gosford, the esplanade filled with boutiques, cafes, markets and bars at Terrigal and beachside living at Umina.

## Fast facts

1. There are approximately 19,692 tertiary students on the Central Coast.<sup>1</sup>
2. The average annual temperature is 19.4 degrees celsius.<sup>2</sup>
3. The Central Coast is the 6th largest urban area in Australia,<sup>4</sup> generating approximately \$20.80 billion per year.<sup>3</sup>
4. There are 41 beaches in the Central Coast area.<sup>4</sup>
5. One of Australia's first certified ECO Destinations, recognised as a world-class destination for sustainable, nature-based tourism.<sup>5</sup>

Supporting over 141,881 jobs, home to over 354,803 residents, the Central Coast has a Gross Regional Product

**A\$20.80 billion<sup>3</sup>**

## Entertainment

There are many budget-friendly and free activities around the region for you to discover. Some include: exploring walking tracks and waterfalls at Somersby Falls, taking a day trip to Central Coast Zoo, visiting various local farmers markets, swimming at one of the many beautiful beaches, learning to surf, boutique shopping on the waterfront or visit Westfield Tuggerah shopping centre.

## Job opportunities

The Central Coast is home to a growing number of industries, including construction, professional, scientific and technical services, beverage and food manufacturing, health care and social assistance and retail trade. Many of these industries offer part-time and full-time job opportunities.

## Post-study work opportunities

are available in Australia after successful completion of study<sup>6</sup>

## Food

The Central Coast is home to a variety of cafes, restaurants, bars and pubs. The Entrance and Terrigal offer waterfront dining experiences and the heart of Wyong and Gosford offer a variety of cuisines.

If you are cooking at home, check out Gosford Asian Mart, Woy Woy Sari Sari Filipino store and LJ General Store Spice Bazaar.

## Sport

Just like Newcastle, the Central Coast has a vibrant sports scene. Cheer on local football club the Central Coast Mariners, and stay fit yourself by joining one of the many casual sports teams. Cool off in beautiful pools and patrolled beaches, and take advantage of student discounts at NUsport gym located at our Ourimbah Campus.

## Connectivity and getting around

### Public transport

Trains and buses safely connect our campuses to the local towns and beaches.

### Free shuttles

A free shuttle bus runs in the morning and afternoon between Ourimbah and Gosford campus.

### Newcastle and Sydney Airport

Two international airports connecting you to major cities within Australia or overseas destinations. It is only 61 km to Sydney Airport or 83 km to Newcastle Airport.

# Sydney

Sydney is Australia's largest city and one of the world's most beautiful harbour cities. For international students, Sydney is a multicultural meeting place and a professional global environment.

## Entertainment

Some low-cost or free activities to enjoy in Sydney include: visiting the Sydney Opera House and Sydney Harbour Bridge, picnicking at Centennial Parklands or the Royal Botanic Gardens, exploring Taronga Zoo, SEA LIFE Sydney Aquarium and WILD LIFE Sydney Zoo, and seeing Vivid Sydney light up the city.

## Food

Sydney has an amazing array of food on offer, from the cheap and tasty delights of Chinatown, or the outdoor street-food market Spice Alley in Chippendale, to the trendy new venues at Barangaroo, or something for everyone in Newtown.

Australians really love their coffee and prefer to support small independent cafes. Try Single O, Mecca Coffee or Regiment in the city.

## Post-study work opportunities

are available in Australia after successful completion of study<sup>6</sup>

### Fast facts

1. The population of Sydney is approximately 5.2 million people.<sup>1</sup>
2. Sydney's average temperature is 18 degrees celsius.<sup>2</sup>
3. Sydney has over 100 beaches within its city limits.<sup>3</sup>
4. Sydney airport is located 8km south of the City Centre<sup>4</sup> and the new Western Sydney airport is due to open in 2026.
5. Sydney is Australia's largest economy, generating over \$142 billion per year.<sup>5</sup>

# International scholarships

15

We are proud to offer both affordable tuition fees alongside competitive scholarships to support students in their studies. Scholarships can reduce the cost of tuition making the University of Newcastle one of the more affordable options to study in Australia.

Find out more about scholarships.

## 20% Scholarship tuition fee waiver\*

### International Excellence Scholarship

The International Excellence Scholarship\* celebrates academic excellence and supports your journey to success with ongoing financial assistance.

The scholarship is awarded annually, based on 20% of the gross international tuition fee, and is calculated per course under a standard full-time study load (80 units), with the unit value varying depending on your specific program.

"Receiving a scholarship decreases the cost of living and minimizes the pressure of financial support, allowing me to pay more attention to the heart of the matter, which means focusing on my academics. It's encouragement and recognition from the University."

**Nancy, China**  
Master of Education

"It means a great deal to be both supported and recognised. These scholarships have not only helped relieve financial pressure but also boosted my confidence and motivation to keep pursuing my goals. The financial support gives me the flexibility to focus more on my studies, engage in extracurricular activities, and consider voluntary or unpaid opportunities that contribute to my personal and professional growth."

**Kim Khang, Vietnam**  
Bachelor of Computer Science

# Our campuses

Our welcoming, friendly and safe campuses offer a range of innovative facilities for you to make the most of your study experience in Australia. You will learn from world-class educators, interact with local and international students and experience the Australian culture and way of life.

Check out our campuses.

## 6 stars

First 6 Star Green Star  
'Design and As Built' rating in regional NSW  
- Q Building, Newcastle City campus

Green Building Council of Australia.

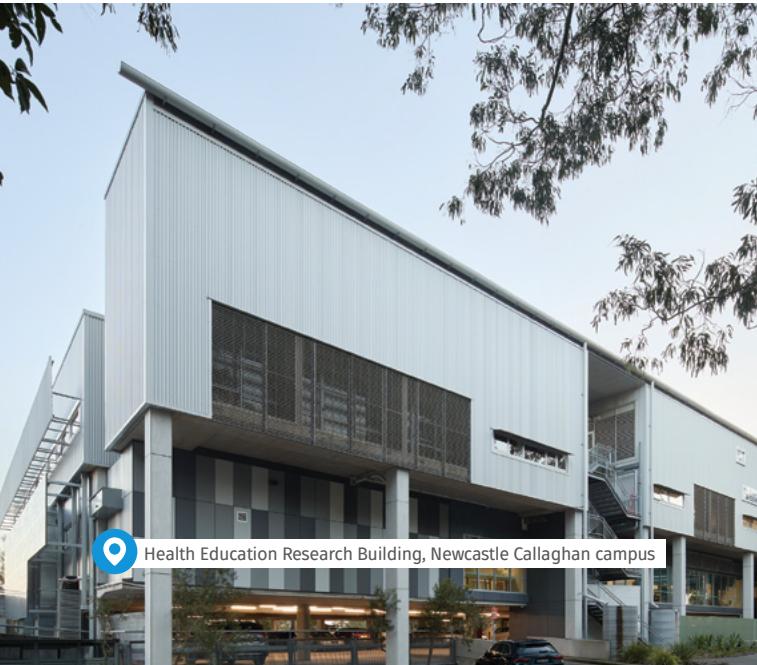

### Newcastle (Callaghan)

Just 12 km from Newcastle's city centre, our Callaghan campus is nestled in 140 hectares of beautiful bushland. With walking paths, native wildlife, and tranquil wetlands, it is the perfect place to focus or take a peaceful break.

Our cutting-edge STEMM (Science, Technology, Engineering, Maths & Medicine), education, and sports facilities are built for hands-on learning. You will study alongside researchers and have the chance to gain real-world experience right on campus.

With top hospitals and research hubs just around the corner, you will dive into practical training early and start building your professional network from day one.

On campus, you will find cozy cafés, comfy study spots, great libraries, student support services, and lively events.

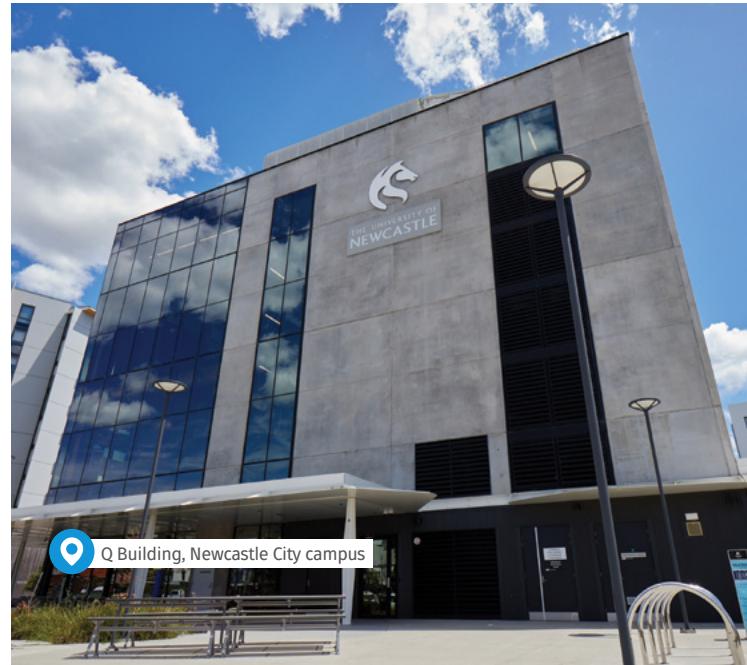

Health Education Research Building, Newcastle Callaghan campus

### Newcastle (City)

Located in the heart of Newcastle's CBD, just a 10-minute walk from the harbour, our City campus blends creativity, business, law, and coastal living.

NUspace features specialised labs, collaborative zones, and moot courts for hands-on learning. The I2N Hub in Q Building (Honeysuckle precinct) supports startup dreams with mentoring, industry events, and co-working spaces. Engage with leading experts at the Conservatorium of Music and utilise world-class recording studios—perfect for aspiring musicians.

Set for completion in early 2027, students will be steps away from our new City Campus Student Accommodation, offering modern facilities in a lively urban precinct.

Q Building, Newcastle City campus

## Central Coast (Gosford Hospital)

Gosford Hospital is a nation-leading health, medicine and wellbeing teaching and education facility, operating alongside the Central Coast Research Institute. The campus offers immersive learning environments for medicine, midwifery and nursing students, working closely with local industry partners.

## Central Coast (Gosford Central)

Our new world-class Mann Street building in the heart of Gosford, close to public transport, will offer modern educational facilities and versatile teaching and learning spaces for business, human resources, leadership and management, marketing, accountancy, education, humanities and social sciences students.

## Central Coast (Ourimbah)

Just an hour's drive from Newcastle, the Ourimbah campus is tucked away in peaceful bushland. You can study health sciences and environmental and life sciences in a relaxed, natural setting. Build skills for life in state-of-the art laboratories. And when you need to unwind, beaches and forests are right on your doorstep.

## Sydney (City)

Right in the heart of the city, we offer cutting-edge postgraduate programs in IT, business, sports analytics and accounting, perfectly designed for students from all over the world. Connect with fellow international students and enjoy a rich multicultural lifestyle in cafés, dining, and arts. Stroll to famous landmarks like the Opera House and Harbour Bridge.

# Learning facilities

We believe a great learning environment should inspire you, excite you and prepare you to enter your chosen industry with the confidence and professional experience needed to stand out in the crowd.

Explore our leading-edge facilities, labs, simulators, collaboration zones and more when you study with us.

## 5 stars

maximum rating for learning resources<sup>1</sup>

### Marketing Technology Lab

Located on level 6 of NUspace at our Newcastle City campus, the Marketing Technology Lab is a dedicated space to develop the skills of the next generation of marketing professionals.

### Greater Bank Finance Lab

Located on level 1 of NUspace at our Newcastle City campus, experience our Greater Bank Finance Lab. Explore the lab infrastructure including market simulator, workstations and other technologies which provide students with a hands-on learning experience in our finance and accounting programs.

### Wind Tunnel Laboratory

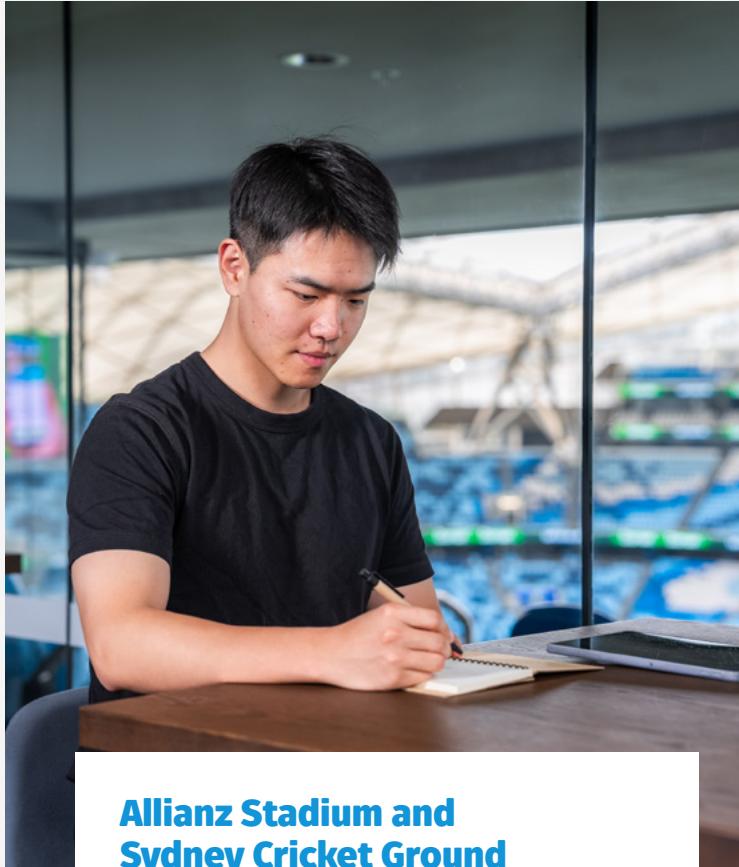

Experience practical learning opportunities in our Wind Tunnel Laboratory, where students explore concepts like aerodynamics, and conceptualise, test, and develop solutions to real-world problems. This facility supports a range of engineering students from early demonstrations to advanced final year project work.

## Nursing Simulation Labs

Our world-class nursing simulation labs are located at Gosford Hospital and at Newcastle Callaghan campus. Our labs provide students with the opportunity to gain hands-on clinical experience which can be applied to their professional placements.

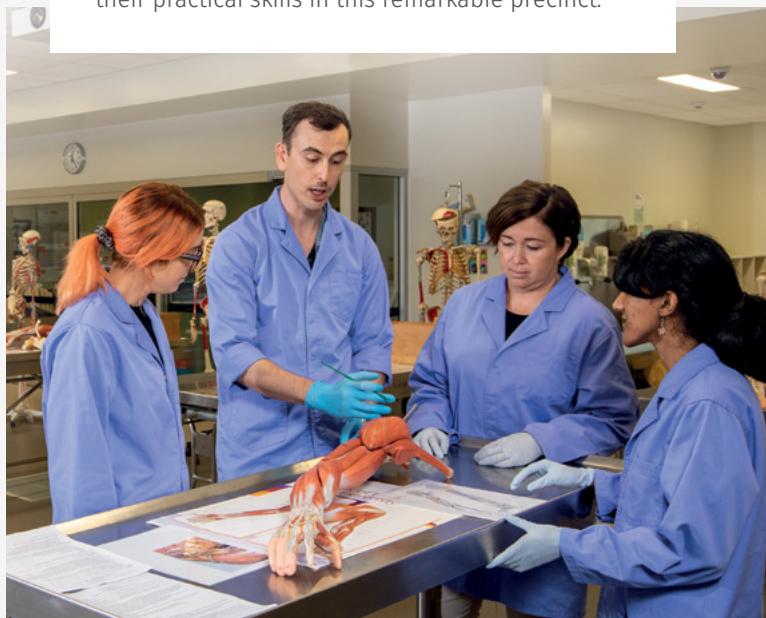

## Allianz Stadium and Sydney Cricket Ground

In partnership with the Global Institute of Sport (GIS), study within the iconic Sydney Cricket Ground and the state-of-the-art Allianz Stadium. This unique, immersive environment offers hands-on learning and real-world experience to prepare students for a future career in sport.

## Anatomy Precinct

Located at Newcastle Callaghan campus, Medical Sciences West is a purpose-built four-storey building that offers world-class facilities such as wet and dry anatomy facilities, a 120-person teaching lab and preparation space, a specimen museum and group study areas. Students studying a range of medical science degrees, including biotechnology, medicine, pharmacy, radiation therapy and speech therapy can build their practical skills in this remarkable precinct.

# Build your career

Recognising the rapidly changing environment our students will be entering when they graduate, our education experience will prioritise activities that help develop life-ready graduates who are community-minded, resilient and ready for work.

## Career Connect

Career Connect is designed to help you build the essential knowledge, skills and experience that you need for the world of work. You will learn how to develop employability skills and how to communicate your value.

Learn more about Career Connect.

## Careers Service

Whether it is career counselling, finding job opportunities, job application assistance or interview preparation, the University's Careers Service is here to help. You can also take advantage of CareerHub online, where employers post opportunities for graduate employment, part-time experience, and paid internships. Our Employability Consultants help you keep your career plans on track and your skills up to date.

## Career-ready placements

When you study with us, all of our undergraduate degrees have a compulsory career-ready placement component as part of the degree. Many of our postgraduate degrees offer a career-ready placement elective. A career-ready placement experience provides an opportunity to gain valuable hands-on training and experience in real world situations. This practical experience is critical in helping you transition into the workforce upon completion of your degree.

**Every undergraduate student at the University of Newcastle will have a work integrated placement opportunity as part of their degree.**

## Clubs and societies

Get involved with the clubs and societies across our campuses and develop your interpersonal and teamwork skills to stand out from other job candidates.

## Connect with industry

There are so many ways to connect with industry and expand your networks while you study. Attend career and employment expos and industry events and meet graduate recruiters to help you transition into the professional world. Access networking opportunities such as iLEAD and make use of the University's strong partnerships with industry. Tap into the University's global alumni network and build relationships to elevate your career.

## Uni Crew student volunteering

Uni Crew is the University of Newcastle's student volunteering program. Volunteering provides opportunities to make new friends and diversify your university experience outside the classroom, as well as engage in a variety of activities, initiatives, and events on and off campus. You will develop employability skills that will prove invaluable as you branch out into the workforce. Once you complete a set number of hours, we will provide you with a reference.

## iLEAD

iLEAD is a globally-focused leadership program that connects you with local and national networks and experiences to accelerate your professional development and career readiness. Through carefully curated workshops, mentoring relationships and leadership experiences, you will develop a set of skills, traits and perspectives that will position you as a leader of tomorrow.

**“I used the career services to get help tailoring my resume to Australian standards, and it was a huge help when I was applying for roles. Their guidance gave me more confidence in presenting my skills and experience.”**

**Gerard, Philippines**  
Master of Cyber Security

Rafi, Indonesia

Bachelor of Business

Career-Ready placement, Prosperity

## Part-time work opportunities

### Jobs on Campus

Working at the University is a great way to earn money and develop your employability skills in a professional workplace. The Jobs on Campus page on the University website advertises a wide range of paid roles throughout the year, including retail and hospitality positions, student ambassadors, customer service assistants, content editors, graphic designers, and other entry-level opportunities.

### Finding Work in Australia

The Finding Work in Australia program is aimed at supporting international students to develop self-awareness, identify opportunities and improve employability. This program will help students navigate and prepare for the Australian job market. By attending, they will also gain access to a range of online resources and activities to support the program.

“I completed my legal practice placement both at the University of Newcastle as well as the Hunter Community Legal Centre (HCLC). During my time at HCLC, I was responsible for conducting initial interviews with clients, conducting research, and give supervised advice to the client to help them with their inquiries.

Being able to actually apply what I have learnt has really prepared me to be a competent practitioner when I graduate.”

**Grace, Hong Kong**

Juris Doctor / Graduate Diploma in Legal Practice

# Leading industry collaboration

As the only university in Newcastle, Hunter and the Central Coast, we offer unparalleled networking opportunities for our students.

Our state-of-the-art facilities and strong partnerships with both local and global organisations ensure you will have the chance to collaborate with leading industries during your studies.

**Build your ideas, test your thinking and access industry experts. Together we can make big things happen.**

## Industry partners

## Integrated Innovation Network (I2N)

The Integrated Innovation Network (I2N) is your gateway to entrepreneurial success at the University of Newcastle. Located at our Newcastle City campus, our hub features cutting-edge maker spaces and free co-working areas for budding startups. Dive into hackathons, connect with industry experts through our mentorship programs, and accelerate your ideas with our entrepreneurship courses. Join our vibrant community of innovators and make big things happen.

Find out how I2N can help you.

# Valued by industry

"The calibre of students graduating from the University of Newcastle is second to none. Students are well rounded, with an exceptional balance of both theoretical knowledge and practical, hands-on experience."

"As a global firm with a thriving Newcastle office, AECOM is fortunate to have access to some of the best engineering, scientific and project management students and graduates right here on our doorstep."

**90.4%**

of our undergraduates found employment<sup>1</sup>

**Australian Government**  
**Australian Taxation Office**

"The University of Newcastle provides some of the highest quality law graduates due to their unique face-to-face placement program."

**Hunter New England Local Health District**

"Our team has really enjoyed having both international students, and local students. We see working with them as an investment in the future of health and healthcare. It is really good for the students, and it is good for our community."

**95.6%**

of our postgraduates found employment<sup>1</sup>

**5 star**

maximum rating for full time employment for postgraduate studies<sup>2</sup>

"Our partnership is incredibly important to finding the next cohort of talented students and providing them with an employment opportunity that makes them want to come back and work with us again."

# Accommodation

No matter where you are joining us from, at the University of Newcastle we are here to support you in finding accommodation.

Whether you are living on or off-campus, you can build lifelong friendships and community, and find numerous opportunities for personal and academic growth.

Find out more about accommodation options.

## Living on campus

Student Living offers nine residences - eight at our Newcastle Callaghan campus and one at our Central Coast Ourimbah campus. When you live with us, you will join 1,800 students from around the globe in secure, affordable, and comfortable on-campus accommodation. Choose from self-contained apartments to dormitory style rooms, all with shared facilities like common rooms, cinema rooms and swimming pools, which bring our community together.

For our Newcastle Callaghan campus residents, you have the option of choosing from catered living or self-catered rooms with communal kitchens. Regardless of which residence you choose, you are able to opt into hot cooked dinners seven nights a week through a meal plan.

## City Campus Student Accommodation

Currently under construction, the new City Campus Student Accommodation in Newcastle CBD will offer a variety of room types including micro studios, studios, twin apartments, and larger shared apartments. Each room will have kitchen and bathroom facilities (private or shared) and access to communal spaces. Residents will also enjoy access to an outdoor terrace, a large shared lounge area, common areas, and laundry and dining facilities. This new building will offer students a contemporary city living option from 2027.

## Benefits of living on campus

### Safe and secure

24 hours / 7 days a week security on site and free security shuttle

### Leadership opportunities

We employ at least 60 students every year through Student Living

### Health and wellbeing support

Counselling, access to a dedicated mental health clinician, after-hours support and wellbeing resources

### ResLife program

Connecting our vibrant community through holistic educational, social development, and fun events and activities

### Study support

Dedicated study spaces and access to mentor-run sessions

### Residential mentors

Support from fellow students living on campus

### 3 types of living environments

Single Gender - live in an apartment with residents of the same gender

Quiet Living - a quieter environment to maximise your study time with less distractions

General - suited to those wanting a balance between their studies and the social aspects of living on campus

## Nihon University Newcastle Campus Accommodation

Nihon University Newcastle Campus offers short-term accommodation of up to 90 days for students studying at the University of Newcastle. Located in the heart of Newcastle CBD, this accommodation is ideal for students who want to get familiar with Newcastle, studying at NUspace, here for a specific short course or needing a home base while looking for something in the private rental market.

Learn more about Nihon accommodation.

## Off-campus accommodation support

The University has a dedicated off-campus Accommodation Support Officer to help any student with the sourcing and securing of safe and appropriate short and long-term off-campus accommodation.

## Finding accommodation

We understand that securing accommodation in Australia has its challenges. That is why we have dedicated on-campus accommodation places for our commencing international students. We want to help take the stress and hassle out of finding accommodation, so you can concentrate on settling in, making new friends and commencing your studies.

## Homestay

The Australian Homestay Network is our preferred provider for our students. Homestay is an excellent option for living with local families in a home environment. Your host family provides not only accommodation, a furnished room, and daily meals, but also a great opportunity to practise your language skills and can help ease the transition into Australia and Newcastle.

“Living on campus in such a diverse environment has greatly enriched my experience abroad. Through weekly social events and gatherings, I've made friends from various cultural backgrounds and created many unforgettable memories—it's truly amazing.”

**Ruiping, China**  
Bachelor of Business, 2024

26

# Cost of living

Before granting a student visa, the Australian Government Department of Home Affairs will require you to show or declare that you have enough funds to pay for your expenses while in Australia.

The Australian Government requires that international students have a minimum of A\$29,710 in demonstrated savings to stay in Australia for 12 months.<sup>1</sup>

Find out more about living and studying in Australia.

## Leading Regional Economy<sup>2</sup>

Honeysuckle

## How does Newcastle compare with Sydney, Melbourne and Perth?

The good news is that Newcastle is more affordable when compared with other Australian capital cities across categories including groceries, leisure activities and accommodation\*.

### For cost of living, Newcastle is:

|  |              |                                 |
|--|--------------|---------------------------------|
|  | <b>43.5%</b> | more affordable than Sydney*    |
|  | <b>25.5%</b> | more affordable than Melbourne* |
|  | <b>27.1%</b> | more affordable than Perth*     |

\*Comparisons sourced from [Livingcost.org](https://www.livingcost.org) 2025

"I find the cost of living in Newcastle to be quite affordable compared to bigger cities. It is easier to manage living and study expenses here, so we do not need to face financial stress. To me, Newcastle is a good place for students who want a balance between cost and quality of life."

**Hanh, Vietnam**

# Pricing was correct at the time of printing, please check online for up-to-date information.

^ Transportation costs will vary depending on actual distance from accommodation to campus. The 2026 costs above represent a range depending on individual living preferences or location (Newcastle, Central Coast, or Sydney). More detailed accommodation information is available via QR code. All costs above are in AUD and are provided as a guide only. On-campus costs are based on 2026 rates and for a standard stay contract. These are subject to change. For the most up-to-date fees, please visit our website.

\* Homestay for other campuses available and fees vary. Students with special dietary requirements may be charged a fee to cover the additional costs to hosts.

# Your University community

Here, diversity isn't just accepted — it is celebrated. Join a global family of students from 96 countries. We believe in creating a welcoming space where everyone feels included, heard, and respected. Whether it is fun events, helpful programs, or friendly faces, you will find the support you need to grow, make connections, and feel right at home.

What you need to know before you arrive at one of our campuses.

## Ease into university life

### Before you arrive

Stay updated on Australian travel and visa rules through our website.

### Airport transfers

New international students can take advantage of our free transfers from Newcastle and Sydney airports to your first accommodation. For a seamless journey, consider flying via Brisbane or Melbourne to Newcastle.

### Orientation

Keep your eyes on your emails to start your orientation journey, and make sure you arrive in time for Welcome Week - our main orientation event. You will get visa guidance, degree information, study tips, and the chance to meet new friends.

## Meet new people

Get involved in our vibrant community with over 100 clubs and societies. Whether you are into academics, charity, or sports, there's something for everyone:

- **Academic clubs:** enhance your studies.
- **Charity and philanthropy clubs:** make a difference.
- **Cultural clubs:** celebrate global diversity.
- **Fun, social and special interest clubs:** just for fun!
- **Political and social justice clubs:** advocate for change.
- **Spiritual and philosophical clubs:** explore beliefs.
- **Sporting and exercise clubs:** 25+ sports at NUsport.

## Campus amenities and services

### University of Newcastle Student Association (UNSA)

Your go-to for both academic and social needs, offering workshops, social events, and a special International Students' Senate.

### Libraries

More than just books, our libraries offer a variety of study spaces for group collaboration or quiet study.

### Safety

We prioritise your safety with 24-hour security across all campuses and a free security shuttle service. International students can also access an after-hours hotline for added security.

### Accessibility

Our campuses are designed to be inclusive, offering a range of services to accommodate students with disabilities and/or temporary or permanent medical conditions.

### Getting around

Navigate easily between campuses with our free shuttle services. All campuses are also well-connected to local public transport, and bike hubs are available for cycling enthusiasts.

### Student Services

Our friendly AskUON team is here to answer any university-related questions, and provide advice about our range of services. Whether you need academic guidance or want to get more involved in university life, all you have to do is ask!

## Student support

We offer a comprehensive range of support services designed to meet the diverse needs of all our students, whether you are under 18, identify as LGBTQIA+, have joined us from overseas, or are just down the road - we are here to help.

### Academic support

AskUON is your go-to for enrolment advice, academic progress, and visa information. Our Learning Advisors offer workshops and resources to enhance your study skills, including English language support.

### Peer support

Join Peer Assisted Study Sessions (PASS) to collaborate with classmates either face-to-face or online.

### NUmates

Find friends and build community when you join our NUmates program, a social group specifically for international students.

### Health and wellbeing support

Medical centres are available at our Newcastle Callaghan and Ourimbah campuses, as well as additional services like pharmacies and physiotherapy clinics. Free counselling is also available, including online options for Sydney and Singapore.

### International student support

Our specialised team offers comprehensive services to support international students academically, socially, and pastorally.

### Religious support

Our Chaplaincy team offers spiritual care across various faiths, with prayer facilities available on all campuses.

### Career assistance

The Careers Service provides workshops, practise interviews, and resume updates to prepare you for your future career. Our UniCrew and iLEAD programs provide opportunities to build skills to transition into the workforce.

Learn more about support on campus.

"I attended PASS sessions for some core subjects. They were very helpful for revising concepts and building confidence before exams. I've used academic support to improve my referencing and writing—it made a big difference in evaluating my writing."

# Global impact starts with you

At the University of Newcastle, you are not just earning a degree; you are contributing to global change in a positive way.

We are the only Australian university with a UNITAR certified International Training Centre for Authorities and Leaders (CIFAL).<sup>1</sup>

Our unique affiliation with CIFAL Newcastle allows you to study courses that are directly aligned with the United Nations Sustainable Development Goals (SDGs), addressing the world's most pressing challenges. Upon completion, you will receive a UNITAR certificate, making you a globally recognised change-maker.

CIFAL Newcastle is one of 34 UN-affiliated training centres worldwide, offering specialised training and leadership programs not just for students, but also for professionals, government officials, and community members.

The University of Newcastle has ranked in the top 40 universities globally in the last 5 years and in 2025 ranked in the Top 10 for 2 SDGs with 2nd in climate action (SDG 13) and 9th in good health and well-being (SDG 3).

Find out more about CIFAL Newcastle.

# Your pathway to success

Unlock your academic potential at the University of Newcastle's College of International Education. Our growing College welcomes students from a wide range of nationalities into a supportive, inclusive community where you can thrive.

With a combined offer for both your college and university studies, and coordinated electronic Confirmations of Enrolment (eCOEs), your transition to university life is clear and streamlined. Our integrated preparatory programs equip you with the academic skills and confidence to succeed — and many of our students go on to outperform their direct-entry peers.

## Foundation Studies

Prepare for university life in just 8 or 12 months.\* Choose to progress to any bachelor degree available to international students (progression score conditions apply).

## Foundation Studies in Medicine

A unique pathway into our Joint Medical Program<sup>#</sup>. Meet specific criteria, and you are in!

## Express Preparation Program

Progress to almost all bachelor degrees after just one, four-month trimester.

## Degree Transfer Programs

Your pathway to your second year of your bachelor's degree. Specialised programs in business, commerce, communication, computer science, engineering, IT, architecture, and construction management.

## Pre-Masters Program

Get a head-start on your postgraduate degree. After either one or two trimesters (depending on your qualifications), progress to a range of masters programs in business or IT with credit for three courses.

## Your pathway to the University of Newcastle

Your path to university depends on your qualifications and your chosen degree. Choose from a variety of our progression pathway programs.

**COLLEGE OF  
INTERNATIONAL  
EDUCATION**

"It really helped me a lot. I slowly learned and grew at the Learning Centre, I became more and more confident and worked harder, and eventually I managed to get into university. Most importantly this course perfectly acclimatized me to the English teaching environment.

Now, I am more confident and comfortable in communicating in English and making presentations, and my speaking skills are continuously improving. Moreover, I have made many friends from other countries in the Language Centre and university, and this is the most proud treasure in my life experience."

**Ruihao, China**  
Master of Business Administration

"Completing the English Language Bridging Program was the best choice I've ever made. It's very helpful for all the courses I enrolled in across my program. It not only supports me with language but also helps me become familiar with the different learning models that I will encounter.

Thanks to this program, I am able to go through all the courses smoothly with confidence."

**Nancy, China**  
Master of Education

# Architecture and Construction

Learn to design and construct a variety of spaces, from residential homes to commercial skyscrapers.

Engage directly with industry leaders, focus on sustainability, and gain hands-on experience through real-world projects.

"I've enjoyed the chance to actually design and bring creative ideas to life. All the Studio classes have been my favourite. That's where I got the chance to design, get hands-on experience, work on interesting projects, and receive really helpful feedback from tutors. I also use the Architecture Maker Space and ABEW Building a lot for 3D printing, timber work, and laser cutting."

### Course overview

Our program creates students who care for Country, who are motivated by social and ecological issues, and who explore their potential as agents for change. Students spend most of their time in the studio with options to undertake project briefs across a range of interest areas.

### What you will study

Join a vibrant and engaged design community that centres on:

- Architectural Design Studio
- Workshops
- Makerspace
- On-Country site experiences

Choose from a variety of elective courses to gain expertise in chosen areas of interest, allowing you to become the architect you want to be.

### Practical experience

Our program is highly studio-based; dedicated to projects that allow for engaged, integrated and applied forms of architectural practice. Students have opportunities to travel locally and globally to complete special projects. Students pursue a year-long final project of their own conception.

### Professional recognition

The Master of Architecture is recognised for registration by:

- The Australian Institute of Architects
- The Architects Accreditation Council of Australia
- NSW Architects Registration Board, and
- The Board of Architects Malaysia (LAM)

### Career opportunities/outcomes

Our program is well regarded by industry for its emphasis on preparing students for the working reality of practicing architecture. Career examples include:

- Architect
- Construction Manager
- Infrastructure Planner
- Overseas Aid Worker
- Private and commercial practice
- Project Manager

There is currently a job and skills shortage in the Australian labour market of Architects and Construction Managers\*.

| <b>Intake</b>                | T1, T2, T3  |

### Course overview

The construction industry is growing rapidly, and there is a high demand for skilled professionals who can manage complex projects effectively. This program will provide you with the skills and knowledge necessary to oversee the life cycle of construction projects and develop critical problem-solving and leadership abilities. You will explore topics such as project management, cost estimation, scheduling, and construction. Additionally, you will learn about the legal and regulatory issues that are specific to the construction industry, which will help you to navigate these complexities and ensure compliance with relevant laws and regulations.

### What you will study

You will study the theory and fundamentals of construction management, along with leading-edge concepts driving the construction industry. These concepts include:

- Building design management
- Quantity surveying
- Volumetric and modular construction

Choose from a variety of core and directed courses to deepen your critical analysis skills, through problem-based learning with an industry focus.

### Practical experience

Students can undertake integrated learning courses to further theoretical understandings in a practical, industry environment with the assistance of industry professionals.

### Professional recognition

This program is internationally recognised through accreditation with the Royal Institution of Chartered Surveyors (RICS) and the Australian Institute of Quantity Surveyors (AIQS).

### Career opportunities/outcomes

There is currently a huge demand for skilled professionals in the construction industry. This program will equip you with essential skills for leadership positions within the field. Career examples include:

- Construction Manager
- Contract Administrator
- Estimator
- Project Manager
- Quantity Surveyor

There is currently a job and skills shortage in the Australian labour market of Contract Administrators, Estimators, Construction Project Managers and Quantity Surveyors\*.

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification – duration of program will alter.

# Business and Management

Develop strategic problem-solving skills and prepare for leadership roles in a global context. Our programs offer practical experience across diverse fields such as business, finance, human resources, and marketing.

“One of my favourite courses was Customer Decision Making and Behaviour. Our lecturer, Fred, is amazing. His classes are always engaging, full of interaction and real-life examples that help us better understand consumer psychology and how it applies to business. This course really opened my eyes to how deeply psychology and marketing are connected—and I always looked forward to each lesson.”

### Course overview

This program will develop your global mindset and improve knowledge and skills in business management, decision making, marketing, organisational behaviour, accounting and finance, strategy management and international business.

### What you will study

The core courses aim to build your skills to deliver sophisticated strategies in a variety of contexts. You will gain an understanding of the international 'big picture', to make you an asset to employers, or a business leader. This course will hone practical skills in:

- Global strategy
- Leading and managing people
- Macroeconomics for managers
- Marketing management

### Practical experience

Utilising an active learning approach, content will emphasise linking concepts and theories learnt in the classroom to real-world examples in different contexts, industries and countries. With a compulsory organisational internship built into the program (career-ready placement) the MBA (Global) will build your practical skill base and knowledge in leadership, communication and problem-solving.

### Professional recognition

Our Business School is in the top 4 business schools in NSW, accredited by both EQUIS and AACSB.

### Career opportunities/outcomes

You will be prepared to apply your skills in roles such as:

- Global Management Consultant
- Global Supply Chain Manager
- International Trade Policy Advisor
- Multinational Marketing Manager

There is currently a job and skills shortage in the Australian labour market of Sales and Marketing Managers\*.

### Course overview

A career in accounting provides challenging, rewarding and versatile opportunities. Businesses are looking for people with superior analytical skills that accounting can provide. This program is designed for students who have qualifications in an area other than accounting. You will gain knowledge of accounting concepts that are transferrable to organisations of all sizes, whether they are in the public, private or not-for-profit sectors.

### What you will study

You will study topics in:

- Accounting information systems
- Auditing
- Business decision making (statistics)
- Economics
- Finance
- Financial accounting
- Law
- Management accounting
- Taxation

### Professional recognition

The Master of Professional Accounting is accredited by CPA Australia (CPA), Chartered Accountants Australia and New Zealand (CA ANZ) and The Association of Chartered Certified Accountants (ACCA). The University of Newcastle's Newcastle Business School is in the top 4 business schools in NSW, accredited by both EQUIS and AACSB.

### Career opportunities/outcomes

Accounting skills provide graduates with opportunities to work in roles such as:

- Chief Financial Officer
- Financial Advisor
- Forensic Accountant
- Internal Auditor
- Ratings Analyst

There is currently a job and skills shortage in the Australian labour market of Financial Investment Advisors and Internal Auditors\*.

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

# “Computing, Maths and Technology”

Embark on a cutting-edge career in technology sectors like computing and mathematics. Benefit from industry placements, and acquire skills that are in high demand in today's job market.

"One of the highlights of my learning process was a personal project on recycling and reuse of construction waste. I took the initiative to collect industry-related information, analyse the specific process involved, and use my IT knowledge to design and optimise the process. By applying critical thinking and analytical tools such as SWOT, PESTEL and stakeholder analysis, I was able to break down and solve business challenges effectively. This project not only allowed me to put my knowledge into practice, but also deepened my understanding through discussions with my tutors and classmates."

Beiyi, China

### Course overview

Information technology is all about the application of technology to solve business, organisational, or societal problems. We prepare graduates to be technically savvy, creative, and flexible. Our information technology degree is designed to meet industry's evolving IT needs. Develop your skills in programming, AI, cyber security, and cloud computing.

### What you will study

Choose a specialist major to build your own career pathway. Develop skills in the following areas:

- Applied artificial intelligence
- Business analysis
- Computing fundamentals
- Databases and information management
- Human computer interaction
- Programming
- Project management
- Systems analysis and design
- Systems and network administration
- Web technologies

### Practical experience

Students have the opportunity to undertake industry placement. Work with a team of students to complete a major IT project, with the opportunity to find and develop a project with an industry partner.

### Professional recognition

Accredited by the Australian Computer Society.

### Career opportunities/outcomes

Enjoy great employment prospects and go on to work in dynamic sectors at the forefront of discovery and innovation. Some typical positions include:

- Games Designer
- Infrastructure Business Analyst
- IT Analyst
- IT Project Manager
- Mobile App Designer
- Software Developer

There is currently a job and skills shortage in the Australian labour market of Analyst Programmers and Developer Programmers\*.

### Combine this degree with:

- Bachelor of Business

\*Jobs and Skills Australia July 2025.

## Master of Cyber Security

| <b>Intake</b>                | S1, S2   |

### Course overview

This program provides an open path to cyber security for individuals from diverse backgrounds. You will develop a holistic understanding of security measures, encompassing network, system, and foundational theories. Gain insights into cyber systems and infrastructures, and their applications.

### What you will study

You will gain extensive knowledge in the areas of cyber systems and infrastructures and their applications. Develop skills in:

- Concepts and experience in networking and systems administration
- Cyber security governance, risk, and compliance
- Foundations of cyber security, privacy, and risk
- Secure AI and use of AI in cybersecurity
- Strategies for security management of systems and organisations
- The role of human factors in cyber security
- Theory, concepts, and practical experience in managing, maintaining, and securing cloud environments

### Practical experience

Enjoy access to our advanced, industry-leading cyber security labs. You will help run cyber hackathons and develop real-world applications in a controlled environment.

### Career opportunities/outcomes

Career examples include:

- Cryptographer
- Cyber Security Analyst
- Cyber Security Architect
- DevOps Engineer
- Network Engineer
- Security Consultant

There is currently a job and skills shortage in the Australian labour market of Cyber Security Analysts, Cyber Security Architects and DevOps Engineers\*.

| <b>IELTS</b>   | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>  | S1, S2   |

### Course overview

This program puts you at the forefront of the dynamic field of AI. Whether you want to enhance your current career or switch to a new path, this program prepares you for success.

### What you will study

Merge essential data science principles with advanced AI techniques to interpret complex data and develop intelligent systems. Delve into areas such as data processing, visualisation, and predictive modelling. Develop the skills needed to solve real-world problems and lead in an AI-driven future.

### Practical experience

Practical experience is embedded in the COMP6900 Computing Project course.

### Career opportunities/outcomes

You will gain skills in high demand across a range of industries. These industries include but are not limited to healthcare, finance, technology, and government. Graduates may qualify for the following roles within the industry:

- Business Intelligence Specialist
- Data Analyst and Scientist
- Data Manager
- Information Security Analyst
- Machine Learning and Big Data Expert

### Course overview

This program is a broad, flexible and technical degree. It offers exciting and diverse career opportunities and challenges. This program provides foundational IT skills for entrants with limited IT experience. It is also suited to experienced IT professionals wanting to enhance their skills.

### What you will study

Develop the critical knowledge and skills required to work as an IT professional. Tailor your program by choosing directed courses that align with your career goals and interests. Choose to specialise in three key interest areas:

- Artificial intelligence
- Business analytics
- Management information systems

### Career opportunities/outcomes

Our graduates are capable of approaching complex problems with a level head and have the confidence to manage IT projects effectively and professionally.

Graduate with the technical expertise required for positions in a range of areas. This includes electronic commerce, information systems, games development, technology management, health informatics or business systems and management. Graduates may qualify for the following roles within the industry:

- Business Analyst
- Database Developer
- Project Manager
- Software Developer
- Systems Analyst
- Web Developer

There is currently a job and skills shortage in the Australian labour market of Software Engineers\*.

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

# Creative Industries and Communication

Pursue a dynamic career in creative fields like digital content, art, or journalism. Tailor your degree to your passions, collaborate with industry partners, and work on real-world projects that shape innovation.

## 95.7%

of undergraduate Communications graduates found employment within four months<sup>1</sup>

## Cutting-edge facilities

Students enjoy access to industry-standard equipment and state-of-the-art training spaces

# Engineering

Tackle global challenges like climate change, food security, and data protection. Our top-ranked programs empower you to create transformative solutions and make a meaningful impact on society.

"The program allowed me to rotate and work with different teams related to engineering, such as Design, Traffic, Subdivision, and Project. It's been a valuable opportunity to gain hands-on experience across a broad range of civil engineering functions. A key part of my degree was the compulsory work placement. It helped me apply and refine my knowledge in real-world settings and build important industry connections."

### Course overview

Civil engineers are responsible for the physical infrastructure that allows society to function. Your studies will cover the three main civil specialisations in structural, water and geotechnical engineering.

You will learn about materials used for construction; how to design buildings to be structurally safe, how to design foundations – shallow or deep – to support bridges or buildings, hydrology and how to manage water resources.

### What you will study

Build critical technical engineering skills in:

- Civil engineering materials
- Engineering management
- Geomechanics
- Structural engineering
- Transportation engineering
- Water engineering

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

Civil engineers can work for construction companies, consulting firms, project management companies, transport companies and governments.

Typical positions include:

- Civil Engineering Designer
- Geotechnical Engineer
- Structural Engineer
- Transport Systems Engineer
- Urban Development Engineer
- Water Engineer

There is currently a job and skills shortage in the Australian labour market of Civil Engineers, Civil Engineering Draftspersons, Geotechnical Engineers, Structural Engineers and Transport Engineers\*.

### Combine this degree with:

- Bachelor of Business
- Bachelor of Environmental Engineering (Honours)
- Bachelor of Mathematics

\*Jobs and Skills Australia July 2025.

## Bachelor of Computer Systems Engineering (Honours)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111305D  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$45,690<br>2027 A\$47,975                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

With a Bachelor of Computer Systems Engineering (Honours), you might find yourself developing advanced computing hardware and software for diverse industrial sectors including intelligent transport, mining and energy, telecommunications, e-health, space and aviation, and civic infrastructure, which are the building blocks of modern society.

### What you will study

Build critical technical engineering skills in:

- Communication networks
- Computer and electrical engineering
- Cyber security
- Electronics design
- Embedded systems
- Internet of things
- Programmable logic design
- Software engineering

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

Typical positions include:

- AI Engineer
- Cloud Computing Engineer
- Computer Systems Engineer
- Cybersecurity Specialist
- Electronics and Embedded Systems Engineer
- ICTSenior Manager
- ICT Solution Architect

There is currently a job and skills shortage in the Australian labour market of Cybersecurity Engineers\*.

### Combine this degree with:

- Bachelor of Computer Science
- Bachelor of Electrical and Electronic Engineering (Honours)
- Bachelor of Mathematics
- Bachelor of Science

\*Jobs and Skills Australia July 2025.

### Course overview

Electrical and electronic engineers design and build systems and machines that automate, control, generate, transmit, measure, and use electrical energy essential to modern life. These include systems for electricity generation and distribution, electronic automation and control of various processes, as well as the transmission and reception of electromagnetic signals.

### What you will study

Build critical technical engineering skills in:

- Communications systems and internet of things
- Control systems and signal processing
- Electrical and electronic engineering design
- Electrical machines, power systems and renewables
- Embedded computing and procedural programming

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

Some typical positions include:

- Automation and Control Engineer
- Electrical or Electronics Design Engineer
- Embedded System Designer
- Renewable Energy Systems Engineer
- Robotics Engineer
- System Engineer
- Telecommunications Network Designer

There is currently a job and skills shortage in the Australian labour market of Electrical Engineers and Electronics Engineers\*.

### Combine this degree with:

- Bachelor of Business
- Bachelor of Computer Systems Engineering (Honours)
- Bachelor of Mathematics
- Bachelor of Mechatronics Engineering (Honours)
- Bachelor of Science

\*Jobs and Skills Australia July 2025.

## Bachelor of **Mechanical Engineering (Honours)**

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111339E  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$46,380<br>2027 A\$48,699                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

Mechanical engineers design, manufacture and optimise specialist machines and processes. They solve important problems using robotics, new advanced materials, the fundamental laws of energy generation and transmission and computer control of physical systems.

### What you will study

Mechanical engineering is the broadest of all engineering disciplines that can be applied to many industries. Build critical technical and engineering skills in:

- Advanced materials and manufacturing
- Bulk solids handling
- Computer-aided engineering
- Design and prototyping
- Fluid dynamics
- Mathematics
- Mechanics
- Thermodynamics

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

Some typical positions include:

- Engineering Project Manager
- Mechanical Engineering Designer
- Mechanical Systems Supervisor
- Mechanical Technology Engineer
- Operating Plant Manager

There is currently a job and skills shortage in the Australian labour market of Mechanical Engineers\*.

### Combine this degree with:

- Bachelor of Aerospace Systems Engineering (Honours)
- Bachelor of Business
- Bachelor of Mathematics
- Bachelor of Mechatronics Engineering (Honours)
- Bachelor of Science

\*Jobs and Skills Australia July 2025.

## Bachelor of **Mechatronics Engineering (Honours)**

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111375A  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$46,470<br>2027 A\$48,794                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1   |

### Course overview

Mechatronics engineering involves the synergy of electrical, computer and mechanical technologies that lead to new solutions to industrial problems. Students study a diverse range of courses like technical design, automation, and operational performance of electromechanical systems. Mechatronics engineers work in industries such as defence, advanced manufacturing, mining and health.

### What you will study

Mechatronics engineering is the broadest of all engineering disciplines that can be applied to many industries. Build critical technical and engineering skills in:

- Autonomous systems
- Electronic design
- Mechatronics design
- Microprocessor systems
- Modelling and simulation
- Sensors and actuators

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

Some typical positions include:

- Avionics Engineer
- Data Communications Engineer
- Industrial Automation Engineer
- Robotics Designer
- Smart Infrastructure Designer

There is currently a job and skills shortage in the Australian labour market of Industrial Engineers\*.

### Combine this degree with:

- Bachelor of Aerospace Systems Engineering (Honours)
- Bachelor of Electrical and Electronic Engineering (Honours)
- Bachelor of Mathematics
- Bachelor of Mechanical Engineering (Honours)

\*Jobs and Skills Australia July 2025.

## Bachelor of **Medical Engineering (Honours)**

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111378J  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$46,255<br>2027 A\$48,568                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

A degree in medical engineering allows you to combine your interest in health and medicine with creativity and problem-solving to address health care challenges. As a medical engineer, you will strive to make medical treatment more effective, efficient, safer and affordable. You will be uniquely placed to save and improve lives.

### What you will study

Major in either medical biomechanics or medical devices. Build critical medical and engineering skills through courses in:

- Analog and digital communications
- Electrical engineering design
- Human pathophysiology
- Neurobiology
- Pharmacology
- Programming and computing

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted provisional accreditation by Engineers Australia.

### Career opportunities/outcomes:

Medical Engineers are involved with the design, development, testing and implementation of technological solutions for the health and medicine industry. You could work with:

- Artificial organs
- Biomedical devices
- Diagnostic equipment
- Dialysis equipment
- Implantable devices
- Nanotechnology drug delivery
- Prosthetic limbs
- Radiotherapy equipment
- Rehabilitation systems
- Surgical equipment
- Systems and diagnostic tests

## Bachelor of Renewable Energy Engineering (Honours)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111379H  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$46,570<br>2027 A\$48,899                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

Spanning the disciplines of chemical, electrical and mechanical engineering, this degree will equip you to work across the whole spectrum of technologies for renewable energy capture, conversion, storage, delivery and management.

### What you will study

Build critical technical engineering skills in:

- Bioenergy
- Energy storage systems
- Geothermal, hydro, ocean and hybrid systems
- Power electronics and renewable energy systems
- Solar and wind

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia.

### Career opportunities/outcomes

To meet the global commitment to tackling climate change, highly qualified engineers are required. Engineers with specialties in renewable energy engineering will be in high demand.

Typical positions include:

- Energy Accountant
- Energy Auditor
- Energy Management Consultant
- Energy Policy Development Officer
- Renewable Energy Engineer
- Renewable Energy Innovation
- Renewable Energy Systems Designer

## Bachelor of Software Engineering (Honours)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 111380D  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$44,420<br>2027 A\$46,641                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.0<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

With the Bachelor of Software Engineering (Honours), you might develop software for web applications, digital health, digital forensics, work in defence, combat cyber-attacks or many other domains. Software engineers focus on analysing clients' needs and designing high-quality software solutions. Develop, integrate and test solutions to meet client requirements.

### What you will study

You will have the opportunity to develop your software engineering skills by working on real world projects with industry clients. Build critical technical and engineering skills in:

- Database management systems
- Enterprise software architecture
- Programming languages and paradigms
- Software architecture and quality management
- Software development

### Practical experience

12-week mandatory professional placement.

### Professional recognition

This program has been granted full accreditation by Engineers Australia and is accredited by the Australian Computer Society.

### Career opportunities/outcomes

Some typical positions include:

- Applications Software Developer
- DevOps Engineer
- Enterprise Architect
- Software Development Manager
- Software Engineer
- Web Developer/Engineer

There is currently a job and skills shortage in the Australian labour market of DevOps Engineers and Software Engineers\*.

\*Jobs and Skills Australia July 2025.

## Master of Materials Science and Engineering

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 0100265  |
| <b>Duration</b>              | 2 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$51,020<br>2027 A\$53,571                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

This program offers you the opportunity to participate in both coursework and research. You will have the opportunity to use state-of-the-art infrastructure. This is available at the world-renowned Global Innovative Centre for Advanced Nanomaterials (GICAN).

### What you will study

You will gain an understanding of how the processing of a material influences its structure, properties, and performance. You will learn to apply this knowledge to address challenging issues in a variety of fields. This unique program involves a broad range of disciplines such as:

- Biology
- Ceramics
- Chemistry
- Computing
- Energy and environmental technologies
- Engineering
- Metallurgy
- Pharmacy
- Polymer science
- Solid-state physics

### Practical experience

There are opportunities to meet industry managers and CEOs face-to-face during industry seminars to gain insights into the industrial work environment.

As part of project-based learning practice, students will have opportunities to engage with industry sponsored projects at the GICAN centre, as a part of their 1-year research project. This prepares our students for high-paced industrial research.

### Career opportunities/outcomes

Materials science and engineering expertise is in high demand across a range of industries and job roles, such as:

- Defence
- Medical technology
- Environmental services
- Catalysis
- Petrochemical
- Adsorption and separation

There is currently a job and skills shortage in the Australian labour market of Materials Engineer\*.

\*Jobs and Skills Australia July 2025.

## Master of Professional Engineering (Civil)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 113848A  |
| <b>Duration</b>              | 2 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$50,650<br>2027 A\$53,183                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

The Master of Professional Engineering (Civil) will help you develop the strategic and technical skills required to help build the physical infrastructure that enables our societies to thrive and grow. You will deepen your technical knowledge in your area of specialisation, learn about engineering practice in the Australian context and develop professional skills in project management and complex problem solving.

### What you will study

You will complete a year-long advanced civil engineering project. You will gain skills in:

- Geotechnical and geo-environmental engineering
- Hydrology and water engineering
- Land surface process and management
- Structural engineering design
- Transportation

### Practical experience

Students are required to complete 12 weeks of industrial experience as part of the program requirements.

### Professional recognition

This program has been granted provisional accreditation through Engineers Australia.

### Career opportunities/outcomes

A Master of Professional Engineering can empower you to take on a leadership role, start your own business or manage major engineering projects.

Civil engineers work for:

- Construction companies
- Consulting firms
- Governments
- Transport companies

There is currently a job and skills shortage in the Australian labour market of Civil Engineers\*.

\*Jobs and Skills Australia July 2025.

## Master of Professional Engineering (Electrical and Electronic)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 113849M  |
| <b>Duration</b>              | 2 years full-time  |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$50,985<br>2027 A\$53,534                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

This program will help you develop management expertise, specialise and deepen your technical skills and be equipped to lead projects and move into more senior roles. Gain advanced capabilities in emerging electrical engineering technologies, which are currently transforming modern society.

### What you will study

During your degree, you can choose a major project that is focused on design or research. You will have the opportunity to diversify your engineering expertise in:

- Advanced telecommunication
- Control systems design and automation
- Digital and electronic design
- Electric drives and highly efficient power utilisation
- Power electronics
- Renewable energy integration

### Practical experience

Students are required to complete 12 weeks of industrial experience as part of the program requirements.

### Professional recognition

This program has been granted provisional accreditation with Engineers Australia.

### Career opportunities/outcomes

This program will open up diverse career opportunities, empowering you to take on a leadership role, start your own business or manage major projects.

Electrical engineers are employed in:

- Automotive industry and transport
- Control instruments and automation
- Electronic design and development
- IT and telecommunications
- Management and consulting
- Manufacturing and construction
- Power and utilities

There is currently a job and skills shortage in the Australian labour market of Electrical Engineers\*.

\*Jobs and Skills Australia July 2025.

## Master of Professional Engineering (Geospatial Engineering and Surveying)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 092850G  |
| <b>Duration</b>              | 2 years full-time<br>Accelerated options available         |
| <b>Locations</b>             | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b> | 2026 A\$49,045<br>2027 A\$51,497                           |
| <b>IELTS</b>                 | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>                | S1, S2   |

### Course overview

If you are looking to launch or advance your career in the field of surveying and spatial information, this program will help you develop management expertise, specialise and deepen your technical skills and be equipped to lead projects and move into more senior roles.

### What you will study

You will be educated with the courses in general engineering management and the specialised courses with advanced technology including:

- Airborne and satellite platforms, applied to problems in natural and built environments
- Global navigation satellite system (GNSS) aka GPS
- Laser scanning and LiDAR
- Photogrammetry on the ground

### Practical experience

Students in the 2 year program are required to complete 12 weeks of industrial experience as part of the program requirements.

### Career opportunities/outcomes

Geospatial engineers work on different projects across a number of different environments, including industries like:

- Land surveying
- Mining surveying
- Remote sensing
- Geodesy and space research
- Construction
- Environmental management
- Transportation

|  |  |
|--|--|
| <b>Master of<br/>Professional Engineering<br/>(Mechanical)</b> |  |
| <b>CRICOS code</b>   | 113850G  |
| <b>Duration</b>  | 2 years full-time  |
| <b>Locations</b>   | Newcastle – Callaghan                                      |
| <b>Indicative annual fee</b>                                   | 2026 A\$49,940<br>2027 A\$52,437                           |
| <b>IELTS</b>   | IELTS overall minimum – 6.5<br>IELTS section minimum – 6.0 |
| <b>Intake</b>  | S1, S2   |

### Course overview

Specialise your technical skills and develop professional attributes to provide innovative solutions to society's needs. You will gain project management and complex problem-solving skills and learn how to apply design thinking and systems engineering principles.

### What you will study

You can choose a major project that is focused on either design or research. Take advanced mechanical engineering courses in:

- Bulk materials handling and transport
- Computer aided engineering and manufacturing
- Dynamics of machines
- Engineering computations
- Engineering economic analysis
- Fluid mechanics
- Materials science and engineering
- Mechanical engineering design
- Mechanics of solids and heat transfer
- Renewable energy conversion

### Practical experience

Students are required to complete 12 weeks of industrial experience as part of the program requirements.

### Professional recognition

This program has been granted provisional accreditation with Engineers Australia.

### Career opportunities/outcomes

Mechanical engineers work in industries such as:

- Medical
- Transport
- Automotive
- Aerospace
- Electronics
- Mining
- Renewable energy
- Robotics
- Automation and advanced manufacturing

There is currently a job and skills shortage in the Australian labour market of Mechanical Engineers\*.

MID Midyear Session

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

# Health and Medicine

Dedicate yourself to improving and saving lives in a variety of healthcare roles. Gain invaluable hands-on experience and practical training, preparing you for a rewarding and in-demand career.

“I have really skilled lecturers who are skilled in their specific fields, they are talented in the emergency department and in their surgical skills that they are able to pass on to me. During placement I was expected to learn with the nurses that facilitate me and educate me, how to communicate with the patient, how to communicate as a team and how to collaborate with other health professionals.”

### Course overview

As one of the most trusted professions, nurses make a real difference to the health and wellbeing of the community and are essential within any healthcare system. Nurses work in a variety of environments, providing excellence in caring to individuals, families, and communities. They are a highly employable workforce across Australia and around the world. Whichever career path you choose as a registered nurse, when you study a Bachelor of Nursing, you can be sure that you will be making an important and meaningful contribution to society. Students also have the option to study at our state-of-the-art Central Coast Clinical School, our nation-leading medical, nursing and midwifery teaching and education facility.

### What you will study

The Bachelor of Nursing mixes face-to-face and online learning with plenty of hands-on nursing experience in simulated learning environments and professional experience placements. International students must reside onshore in Australia and attend all tutorials and simulated learning environment sessions (nursing labs) no later than the end of week 1. You will complete 800 hours of compulsory clinical placements in a variety of settings from medical-surgical facilities, acute care, mental health settings to aged care and rural and remote health facilities. Professional experience placements occur in blocks and involve morning and evening shifts. Night duty is introduced in your final year. You will be inspired by our enthusiastic and experienced educators and internationally ranked researchers who bring courses to life and share their love of learning.

You will study nursing theory and practice in:

- Acute care
- Bioscience
- Child and adolescent health
- Community health
- Health promotion and education
- Indigenous health
- Lifespan approach
- Medical and surgical nursing
- Mental health
- Older people
- Pharmacology

### Practical experience

You will complete 800 hours of compulsory clinical experience.

### Professional recognition

Accredited by the Australian Nursing and Midwifery Accreditation Council. Nursing graduates are eligible to apply for registration with the Nursing and Midwifery Board of Australia, under the Australian Health Practitioner Regulation Agency (AHPRA).

### Career opportunities/outcomes

Registered nurses can have careers in diverse areas such as aged care, mental health, community health, critical care, intensive care, oncology, operating theatres and paediatrics.

Career progression roles include:

- Clinical Nurse Consultant
- Clinical Nurse Specialist
- Nurse Educator
- Nurse Manager
- Nurse Practitioner
- Nurse Researcher

There is currently a job and skills shortage in the Australian labour market of Registered Nurses, Nurse Practitioners and Nurse Researchers\*.

\*Jobs and Skills Australia July 2025.

## Bachelor of Medical Radiation Science (Honours) (Diagnostic Radiography)

|                              |  |
|------------------------------|--|
| <b>CRICOS code</b>           | 088060E  |
| <b>Duration</b>              | 4 years full-time  |
| <b>Location</b>              | Newcastle – Callaghan Campus                               |
| <b>Indicative annual fee</b> | 2026 A\$43,250<br>2027 A\$45,413                           |
| <b>IELTS</b>                 | IELTS overall minimum - 7.0<br>IELTS section minimum - 7.0 |
| <b>Intake</b>                | S1   |

### Course overview

Diagnostic radiographers create medical images to diagnose and manage patient health to save and improve lives. They play an important role in medicine and health care and contribute significantly to improving community health. Students will develop essential clinical reasoning and patient management skills and have access to the latest diagnostic radiography technologies. Some of these include plain x-rays, computed tomography (CT), fluoroscopy, magnetic resonance imaging (MRI), ultrasound, angiography and mammography. With over 30 years of industry experience, our expert educators will inspire you and ensure you stay at the forefront of emerging research in diagnostic radiography.

### What you will study

The Bachelor of Medical Radiation Science (Honours) (Diagnostic Radiography) provides a strong foundation in physical, biomedical and behavioural sciences, combined with hands-on professional experience placements. You will complete over 40 weeks of clinical placements in a range of settings, including public and private imaging departments in both metropolitan and rural areas. These placements will give you valuable hands-on experience in radiology. On campus, you will also build your skills using modern labs and radiographic equipment in our world-class health sciences precinct.

Areas of study include:

- Anatomy and physiology
- Clinical education
- Clinical methods
- Medical imaging instrumentation
- Patient care
- Physics
- Radiation protection

### Practical experience

You will complete 40+ weeks of clinical placement throughout the degree, starting in first year.

### Professional recognition

Accredited by the Medical Radiation Practice Accreditation Committee. Graduates are eligible to apply for registration with the Medical Radiation Practice Board of Australia under the Australian Health Practitioner Regulation Agency (AHPRA).

### Career opportunities/outcomes

Diagnostic radiographers can have careers in diverse areas such as private or public imaging departments, accident and emergency wards or operating theatres.

Career progression roles include:

- Chief Radiographer
- CT Radiographer
- Diagnostic Radiographer
- Mammographer
- MRI Radiographer
- Sonographer

There is currently a job and skills shortage in the Australian labour market of Diagnostic and Interventional Radiologists and Sonographers\*.

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

^ This degree has multiple intakes and durations. Please visit the University website for more information.

+ Semester 1 intake for international onshore students only.

# Humanities and Social Sciences

Explore complex societal issues, human behaviour, and global challenges.

Gain a diverse skill set and engage in hands-on learning experiences aimed at creating positive social change.

"My research project in the final year was the biggest highlight of my program. I worked very hard towards my research topic and found evidence to present the issue and advocate for the specific cohort. The entire experience was quite enriching as I gained a lot of knowledge about what was happening in society and how social workers could support the cohort. With this I was also supported very well through the university staff that made the research process much better."

### Course overview

This program is designed for students interested in becoming qualified social workers with a bachelor's degree in an unrelated field. You can complete this intensive graduate certificate in six months, to become eligible to enrol in the Master of Social Work (Qualifying) in the following semester.

### What you will study

Courses in this program cover the essential knowledge and skills required for effective practice in the human and social services sector. You will also explore fields of practice to develop awareness and understanding of practice across contexts.

### Career opportunities/outcomes

Upon completion of the Master of Social Work (Qualifying), possible careers include:

- Case Manager (child protection, out of home care, housing, addiction, disability)
- Community Development Officer
- Counsellor
- Mental Health Clinician
- Policy Adviser
- Social Worker

There is currently a job and skills shortage in the Australian labour market of Social Workers\*.

\*Jobs and Skills Australia July 2025.

| <b>Intake</b>                | S2   |

### Course overview

This program is practice-led and industry engaged, offering embedded fieldwork placements, to best prepare you for your professional career as a social worker. Choose to study full-time or part-time, with a flexible 'night school' approach to class times to suit your work and care responsibilities at home.

### What you will study

This program is experience-based – it integrates theory, practice, research and social work values. Professional placement is integrated throughout the program with a total of 1000 hours of placement.

### Practical Experience

Students will undertake two supervised fieldwork placements embedded into the coursework of this program totalling the 1000 hours needed for qualification.

### Professional recognition

This is an AASW-accredited qualification (provisional). It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards.

### Career opportunities/outcomes

In Australia, social workers are generally employed in several industries, including:

- Case Manager (child protection, out of home care, housing, addiction, disability)
- Community Development Officer
- Counsellor
- Mental Health Clinician
- Policy Adviser
- Social Worker

There is currently a job and skills shortage in the Australian labour market of Social Workers\*.

# Accelerated degree options available based on individual student backgrounds.

\* This program is an honours only program. Please visit the University website for admission requirements.

\* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

# Academic entry requirements

## Minimum academic entry requirements

There are minimum academic entry requirements to the University of Newcastle by level of study. These vary by country and program. If your country or qualification is not listed in the table below, visit our website and select the degree you are interested in studying and the country you have completed a qualification from to see applicable qualifications, required score and calculation methods.

Scan the QR code to find out more.

## The College of International Education (CIE)

For those who do not meet the academic requirement for direct entry, the CIE offers pathway opportunities to our degrees in a supportive environment designed especially for international students.

Please refer to CIE for academic entry requirements for qualifications from the countries:

- Japan - Japanese Upper Secondary School Graduation Diploma
- South Korea - Korea Republic Senior High School Diploma

# How to apply

Apply early to secure your place. Late applications will be deferred to the next available intake. Start your journey at the University of Newcastle in just a few easy steps.

**1**

## Find your agent

The University of Newcastle has a list of education agents that are located around the world and are able to assist you with your application.

Students from some regions are required to lodge their applications via education agents as direct applications will not be accepted.

Scan QR code.

**2**

## Program handbook

Check out the program handbook for your preferred degree.

Scan QR code.

**3**

## Review what you need to apply

Scan QR code.

**4**

## Check key dates

Scan QR code.

**5**

## Register on the portal and complete the online form.

If applying without an agent, upload coloured copies of all supporting documentation.

**6**

## Assessment

Your application will be assessed to determine if you meet the academic, English proficiency and any other relevant requirements for admission to the University and your desired program.

## Outcome

You will be notified of the outcome of your application via email. If your application is successful, you will receive an offer letter from the University.

**7**

**Conditional offer letter** – upload the outstanding documents on the action item to meet the conditions of your offer.

**8**

## Accept your offer

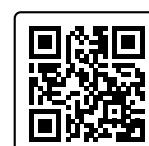

Log in to the portal to accept your offer, upload your signed acceptance form, and pay the deposit using the link provided in your offer letter.

**9**

## Receive your CoE

You will receive an email confirming your acceptance, along with instructions to activate your student account. This email will also include your Confirmation of Enrolment (CoE), which you will need to apply for your student visa.

## Apply for your visa

Scan QR code.

# Uni terminology

## Some key terms explained

Starting your university journey can sometimes feel overwhelming. This directory defines some useful concepts to help you along the way.

### College

An organisational unit with responsibility for academic programs, often with a number of sub-units called Schools. All degrees will be owned by a particular College of the University.

We have four Colleges at the University of Newcastle, they include:

- College of Engineering, Science and Environment
- College of Health, Medicine and Wellbeing
- College of Human and Social Futures
- College of International Education.

### Combined degrees

A combined degree means you study two degrees at once. You will then graduate with two qualifications in less time.

### Learning formats

- **Blended Learning:** enables you to master course content independently through a variety of online learning activities and then attend workshops to engage with materials on a deeper level and actively work with course materials.
- **Laboratories:** give you a chance to practise and experiment with what you are learning.
- **Lectures:** provide the theory component of your area of study in an interactive and engaged environment.
- **Tutorials:** small classes run by tutors where students have the opportunity to explore and ask questions.
- **Workshops:** active classes that give you a chance to practise what you are studying in an engaged environment.
- **Captured Lectures (through UONCapture):** provide slides and audio recordings of your lectures to allow you to listen back and review lecture materials in your own time.

### Majors and minors

Some degrees allow you to major or specialise in a particular group of courses. This focuses your area of study and ensures you are suitably qualified for jobs in your preferred field.

Some degrees also give you the opportunity to complete a double major which is two specialty areas. A minor is a specialised area of study without the depth of a major.

### Mid-year

You can apply to start selected degrees in the second semester commencing in August.

### Qualification

- **Bachelor degree:** the university level qualification for entry into many professions.
- **Diploma:** a program of study requiring 80 units to be completed. These are not available to international students.
- **Doctorate:** the highest postgraduate achievement an individual can earn and recognises a significant original contribution to a field of knowledge.
- **Higher Degree by Research (HDR):** is a postgraduate university degree involving a unique supervised research project. These degrees are either a Masters of Philosophy or a Doctoral degree (either Professional Doctorate or a PhD).
- **Honours:** some degrees allow you to get an additional qualification that helps boost your chances of employment. Embedded honours is included in many 4 year degrees or honours can be studied as a separate additional year for 3 year degrees.
- **Masters:** a qualification granted at the postgraduate level to individuals who have successfully demonstrated a high level of expertise in a specific field of study or area of professional practice.
- **Postgraduate degree:** any qualification being at the level of Graduate Certificate or above.
- **Undergraduate degree:** any qualification up to and including the level of a Bachelor Honours degree.

### Academic calendar

A formal schedule of important dates throughout the academic year, consisting of:

- **Semester:** This is the academic teaching period, which is 12 weeks in duration. There are two semesters in a year.
- **Trimester:** For some programs, the University operates a trimester system. This involves three 12-week trimester periods throughout the year.
- **Midyear Session:** A number of courses are offered to undergraduate and postgraduate students in the middle of the year. These courses are delivered in a shorter, more intensive format.

### Career-ready placements

Work experiences built into our degrees where you can apply your classroom theory to a real-world setting.

### Student support

We have a range of services available to help you, such as:

- **Peer Assisted Study Sessions (PASS):** one-hour weekly review sessions.
- **Academic Learning Support:** for tips, workshops and resources from our Learning Advisors.
- **Careers Service:** for access to valuable work experience opportunities and employment help.
