About Seattle Colleges

Attended by more than 45,000 students each year, Seattle Colleges offers three unique campus environments. North Seattle College, Seattle Central College, and South Seattle College are all located within the beautiful and vibrant city of Seattle, Washington. For over 50 years, Seattle Colleges has been a popular destination for students from around the world looking to pursue higher education.

Programs Overview

Once you complete a degree or a certificate program of at least 9 months, you may be eligible to apply for work experience relevant to your field of study through Optional Practical Training (OPT).

UNIVERSITY TRANSFER

Save thousands of dollars on your four-year bachelor's degree. Begin your degree in the University Transfer (2+2) program at Seattle Colleges, taking general education and pre-major courses. After you earn an associate degree, transfer to a four-year college or university for an additional two years to complete a bachelor's degree.

HIGH SCHOOL COMPLETION PLUS

Earn your high school diploma and start your bachelor's degree. The High School Completion Plus program allows you to earn both a Washington state high school diploma and an associate degree within two years. Then, transfer to a four-year college or university to complete the last two years of your bachelor's degree.

IP SHORT-TERM CERTIFICATE

Study in the U.S. for a short time. IP Short-Term Certificates (IP-STC) offer a flexible option if you want to study for 3, 6, 9, or 12 months without completing a degree or a Washington state-awarded certificate. Students enrolled in an IP-STC often take advantage of other learning opportunities offered at Seattle Colleges, such as internships and volunteering.

CAREER TRAINING

Prepare for a technical career. Over 100 different programs prepare you to be career-ready in a technical field, without the need to transfer. These programs offer associate and bachelor's degree options, as well as certificates. Admission requirements to these programs can vary.

INSTITUTE OF ENGLISH

Improve your English language skills. The Seattle Colleges Institute of English (SCIE) offers quality, results-oriented programs (Intensive English and College Bridge) to international students who want to improve their English language skills in preparation for college-level study. A student's English proficiency will determine their entry point into the programs.

Transfer Programs

UNIVERSITY TRANSFER

Save thousands of dollars on your four-year bachelor's degree.

The University Transfer (2+2) program gives you the option to start a bachelor's degree in an affordable, supportive environment. After two years of general education and pre-major study at Seattle Colleges, you'll earn an associate degree. Then, transfer to a four-year college or university for an additional two years to complete a bachelor's degree.

HIGH SCHOOL COMPLETION PLUS

Earn your high school diploma and start your bachelor's degree.

Through the High School Completion Plus program, you can take full-time college classes, just like students in the University Transfer program. At the same time, you can complete requirements for a Washington state high school diploma. By choosing High School Completion Plus, you can earn both your high school diploma and an associate transfer degree in two years—all at the Seattle Colleges campus of your choice.
