

IT'S WHO WE ARE

OUR MISSION

At Montverde Academy (MVA), our mission is to inspire students to become leaders with a passion for knowledge, global vision and innovation while developing character in a nurturing and diverse community.

When you become a student at MVA, you become a part of a community of unique, diverse people whose character plays a vital role in the Academy experience. Students are motivated to succeed through challenging academics, taught by an engaging, experienced staff who educate students to make positive change through critical thinking, global perspective, and community involvement.

Upper School Academic Program

Students must have a cumulative total of 24 credits, 100 hours of community service, and complete their senior speech. One credit consists of a full-year course or two one-semester courses. The following credits are required for graduation:

- English* 4 credits Students whose primary language is not English must earn a minimum of three credits in English, including a minimum of one full credit in English I or higher.
- Mathematics* 3 credits A minimum three credit requirement including Algebra I, Geometry, Algebra II
- Science 3 credits One credit of Biology is required for all Upper School students.
- Social Studies 3 credits One credit of US History is a required course for all Upper School students.
- World Language 2 credits Students whose first language is English are required to take at least two consecutive years of the same world language in grades 9-12.
- Physical Education 2 credits Credits are earned for afternoon activities, a team sport or health and fitness class.
- Electives 7 credits One credit of Art is required for all Upper School students.

*All Upper School students are required to be enrolled in at least one English course throughout each academic year and are required to take a minimum of three years of mathematics.

IT'S WHAT WE DO

Founded in 1912, Montverde Academy is a college preparatory, coeducational boarding and day school serving grades Pre-K3-12 and post-graduates. The boarding program serves boys and girls in grades 7-12 and post-graduates.

Academics are the foundation at Montverde Academy. MVA's Upper School experience focuses on an comprehensive college-preparatory curriculum. Our distinct program emphasizes small class sizes, advisories, in-depth support of learning specialists, guidance counselors, and a department solely focused on finding resources and the best university/college for our graduates starting in grade 9.

STRONG CURRICULUM

Montverde Academy teachers are authorities in their academic fields who work to engage students in a challenging, innovative environment. Our instructors continue to develop and learn professionally through master classes, graduate study, and collaboration. More than 70 percent of our teachers hold a Master's Degree or higher.

At MVA, we strive to provide a curriculum that propels students to higher levels of achievement.

ADVANCED PROGRAMS

Dual Enrollment Programs

In partnership with the University of Florida and Lake-Sumter State College, Montverde Academy offers students the opportunity to enroll in college-level courses up to two classes per semester.

Dual Enrollment with the University of Florida This program allows juniors, seniors, and post-graduate students to enroll in up to two classes per semester to simultaneously earn high school and college credit. The rigorous courses are taught online by the University of Florida professors and are permanently recorded on the student's transcript.

The following requirements are set by the University of Florida (UF).

- Cumulative unweighted 3.6 GPA
- Meet one of the qualifying test scores:
 - Composite PSAT: 1,130 Composite, SAT: 1,100, Composite ACT: 22
- Satisfy course prerequisites

*Additional cost per credit hour and textbook fees for dual enrollment programs.

Dual Enrollment with Lake-Sumter State College (LSSC) This program allows juniors, seniors, and post-graduates to enroll in a maximum of two classes per semester offered by Lake-Sumter State College in order to simultaneously earn high school and college credit. The rigorous courses are taught online by Lake-Sumter State College Professors and are permanently recorded on the student's transcript. The following requirements are set by Lake-Sumter State College (LSSC).

- Cumulative unweighted GPA of 3.0
- Meet one of the qualifying test scores:
 - SAT: Reading: 24 Writing: 25 Math: 25 | ACT: Reading: 19, Writing: 17, Math: 19

Intensive Subject Area Concentration (SAC) Programs

Montverde Academy offers a comprehensive study plan and curriculum in four major concentrations in college-preparatory courses over the four years of high school beginning in grade 9 that lead to a specialized diploma in the following areas:

BIED - Business Innovation and Entrepreneurial Development

For those who plan on entering the business and financial world seeking to become global entrepreneurs, corporate and government leaders, as well as business and societal problem solvers.

Global Perspectives

For students interested in pursuing careers in Education, Pre-Law, Social and Public Services, Government, and Real Estate.

Media Arts & Communications

For those who are passionate about arts and communication and who want to pursue a career in visual arts, graphic design, creative writing, copywriting, journalism, photojournalism, video journalism, media production, public relations, social media content creator, or other types of professional communications.

STEM - Science, Technology, Engineering, and Mathematics

For those who seek careers in STEM fields, there are five different concentration options: Biomedical (Pre-Med, Pre-Vet, and Pre-Dental, and careers in Wellness, Health or Life Science), Chemistry and Physics, Computer Science and Graphics, Engineering, and Environmental Sustainability.

Distinguished Scholars Program

The Distinguished Scholars Program is a program for students who have applied and have been selected, who participate in opportunities for intellectual rigor and stimulation both in and out of the classroom throughout high school in further preparation to pursue matriculation to the most competitive colleges and universities in the United States and abroad.

These students have completed the classroom coursework, field trips, and seminars which support and encourage an enriched intellectual atmosphere. Distinguished Scholars dedicate themselves to the highest level of scholastic pursuit to successfully complete the program.

MIDDLE SCHOOL

In our Middle School, we are a community of thinkers, who by working together, experimenting, and exploring, create innovative ideas that invoke thought and change.

During their time in the Middle School, students develop the skills of collaboration, teamwork, critical thinking, and problem-solving within a rich, and rigorous academic program to create a strong foundation for success in the Upper School, college, and beyond. Knowledgeable and enthusiastic teachers build strong connections with our students, and our students connect with each other in ways that allow them to practice the closely related skills required for collaboration and leadership. Alongside a strong foundation in academics, our students develop skills like time management, self-advocacy, compassion, self-confidence, and resiliency — skills that will help them to make the best use of their strong academic preparation and to make a positive impact on the world around them.

LOWER SCHOOL

Our Lower School curriculum is carefully chosen and researched to focus students on developing a deeper understanding of “why.” Teachers facilitate the talents and gifts of each child to help them to discover new and creative ways to access knowledge, interpret content and develop and share their ideas.

Enrichment programs at Montverde Academy support our students through fun, educational programming that further develops academic, social, and creative growth through athletics, service opportunities, technology, and fine arts.

More on our Lower School

Pre-K3: 15:2 student-to-teacher ratio

- Must be three years old by Sept. 1
- Must be potty trained

- Must be four years old by Sept. 1
- Two class sections

Kindergarten: 20:2 student-to-teacher ratio

- Must be five years old by Sept. 1
- Two class sections

Grades 1-5: 20:1 student-to-teacher ratio

- Two class sections each

Curriculum

Pre-K3: Our developmental curriculum is hands-on and play-based to promote growth in social development, school readiness, academics, and self-help skills. We work to make students feel safe and nurtured as they experience school for the first time. Curriculum introduced includes mathematics, science, social studies, fine arts, technology, and foreign language.

Pre-K4: OWL by Pearson, Heggerty Phonics - Building on the developmental curriculum of Pre-K3, our Pre-K4 program continues to promote growth in early literacy, early numeracy, social development, and self-help skills. Looking at the individual needs of each child, students grow and learn independently and collectively through small group and large group experiences. Curriculum includes: *Handwriting Without Tears*; Spanish, PE, Music, Art.

Kindergarten: *Being a Reader, Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears*; Spanish, PE, Music, Art, Drama, Technology, Library.

First Grade: *Being a Reader, Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears*; Spanish, PE, Music, Art, Drama, Technology, Library.

Second Grade: *Being a Reader, Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears; Document Based Questions (DBQs)* by The DBQ Project, Spanish, PE, Music, Art, Drama, Technology, Library.

Third Grade: *Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears; Document Based Questions (DBQs)* by The DBQ Project, Spanish, PE, Music, Art, Drama, Technology, Library.

Fourth Grade: *Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears; Document Based Questions (DBQs)* by The DBQ Project, Spanish, PE, Music, Art, Drama, Technology, Library.

Fifth Grade: *Being a Writer, Making Meaning; Math in Focus – the Singapore Method; Amplify Science (Amplify Education, Inc.); Next Generation Science Standards; Studies Weekly.* Curriculum includes: *Handwriting Without Tears, Document Based Questions (DBQs)* by The DBQ Project, Spanish, PE, Music, Art, Drama, Technology, Library.

EA SPORTS GAMING AT MVA

EA SPORTS and Montverde Academy (MVA) have partnered to create unparalleled educational and extracurricular opportunities for aspiring video game industry professionals, animators, engineers, programmers, designers, and marketing specialists.

Combining insights from the top publisher of sports video games and an institution recognized globally for producing academically advanced students, EA SPORTS Gaming at MVA represents the convergence of world-class industry, academic and athletic expertise.

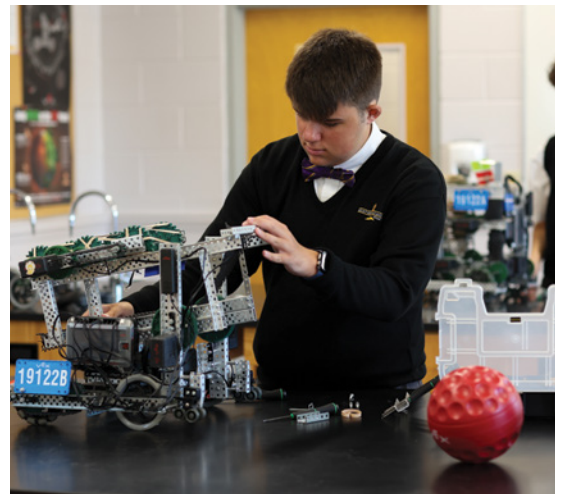

EA SPORTS Gaming at MVA students will participate in challenging academics, learn relevant technical knowledge and skills, explore in-depth and hands-on comprehensive experiences in an innovative, collaborative learning environment.

MVA ROBOTICS

Our extensive Robotics program is a blend of in-class curriculum and hands-on experiences that enable students to develop skills in assembly, programming, and operating robots. The curriculum centers on applications of science, technology, engineering, arts and math (STEAM) in digital media and interactive entertainment.

Along with the in-depth curriculum, students can gain experience in the evolving mechatronic engineering industry through our intensive robotics syllabus where students have the opportunity to learn multiple programming languages and compete against teams from across the state and nation to build their mechanical and computer engineering skills.
